Moodle Access for Students

What is Moodle?

Moodle is a system that will be replacing Blackboard Vista at The College of Westchester. During the Spring II term, students will have some classes in Moodle, but most classes will still be in Blackboard. All classes will be hosted in Moodle in the Summer 2011 term.

How do I access Moodle?

If you are in a class with a Moodle site, you can access the site in two ways:

1. The fastest way to access your Moodle class site is directly: go to http://lms.cw.edu, and log in with your CW user name and password (the same as you would use for Cruiser or Blackboard).

2. Also, if you can't remember which of your courses will be using Moodle, you can still find the class in Blackboard. Any class that is using Moodle with have a link to the Moodle site in Blackboard.

You will log in to Moodle with the same username and password as you use in Blackboard and Cruiser.

What if I need Moodle help?

There are lots of ways to get help if you can figure out how to do something. You can get Moodle help from our 24/7 helpdesk vendor in three ways:

For Help, Contact		
Call them at (855) 800-3000 (toll free!)	Email: westchesterhelp@ceptive.com	Chat link found in Moodle on the home screen
